

Think Aloud Evaluation 1: 15/03/2026

- **Positive:** The game interface is visually appealing and clean, allowing players to quickly understand how to operate the game. The rules are simple and clear, making the game easy to learn and play.
- **Negative:** Some monsters' UI occasionally disappears, making them difficult to see.

Think Aloud Evaluation 2: 15/03/2026

- **Positive:** The game provides effective interactive feedback. The click sounds are clear, and there are appropriate sound effects for events such as monster deaths, tower placement, and losing HP. When a tower is placed in an invalid location, the game immediately provides a warning.
- **Negative:** The font size for monster and tower information is a bit small, which affects readability. The game lacks flexibility, as the music volume and brightness cannot be adjusted.
